

Water Trucks, Surge Busters, & Mountainous Terrain

WHO: Paul Casini, Casini Hauling

WHERE: Duncan Mills, CA

HAULING REGION: Coastal Range north of San Francisco

TRUCKS: 3600 & 3400 straight trucks (baffled)
Double trailer (3500 each, smooth bore)

PAYLOAD: Delivers water for wineries, the forest service, & drinking water.

TERRAIN: Steep, winding mountainous roads, paved, unpaved, even logging roads.

DRIVING CONDITIONS: Rain, Snow, Sleet, Ice, Fog, Smoke

BENEFITS:

Significantly reduces turn-around time on partial loads.

Even helps baffled trucks.

Rear Trailer no longer fish tails.

More stable on hilly, twisting mountain roads.

"The benefits of using Surge Busters® on the trailer units were significant, but I was surprised how much they even helped on my baffled straight trucks. I couldn't run without them. They truly work and make driving a truck much safer." - Paul Casini
